education

Carnegie Mellon University
B.Sc. in Information Systems, 2018 GPA 3.67
User-centered Design track. Focused on design for
user experience and project management.

work experience

Gucci
User Experience Designer Fall 2020 - Present
my role was to communicate the brand mythos through digital experiences, while
seamlessly and genuinely helping customers find the products that would delight them
and be part of their personal stories.

Rimads Qatar
Designer & Front-end Developer Summer 2018 - Fall 2019
designed, developed, and conducted usability testing on Stork; a new health platform
that rethinks how users get their medicine & health products.

Vodafone Qatar
UX Intern Summer 2017
designed and implemented an order-logging system that aimed to automate processes,
ease management and communication, and eliminate inefficient practices.
